Process & Collab

Jira, Confluence, Office 365

EDUCATION

Savannah College of Art & Design

2009-2013

BA Fashion Design & Marketing/Management

PRATT Institute

2018

Pursued mid-career to bridge physical product systems thinking into digital UX — completed while continuing full-time at Kohl's

Thinkful

2022

Reinforced UX fundamentals immediately prior to moving into full-time digital product leadership

WORK EXPERIENCE

Lead Product Designer

April 2023 - Present

EntryPoint Networks · Fiber internet provider · 5-portal B2B & B2C SaaS suite · Remote

- Five-portal scope: Own the full digital product suite for a fiber internet provider expanding across multiple U.S. cities — subscriber, provider, operator, network management, and public-facing city sites — from UX strategy through production handoff
- AI-native workflow: Cut design-to-production time by 40% with a prototyping-first, AI-native workflow (Claude, OpenAI, Figma Make), governed by detailed PRDs and AI rules instead of manual Figma handoffs
- Production delivery: Shipped production software integrated with Stripe, Clerk, and Supabase
- Documentation at scale: Produced hundreds of product flows, scopes, and governance documents that let a lean team operate with the output of a full product org
- Cross-functional leadership: Partner with engineers, executives, and city government stakeholders to align design with business goals and community needs

Senior Manager of Design

July 2019 - April 2023

Macy's Inc. · Style & Co. Knits & Sweaters · Hybrid, NYC

- Brand scope: Led design for Style & Co. knits and sweaters, one of Macy's highest-volume private label brands
- Team leadership: Directed a team of six designers and freelancers across the full collection lifecycle — trend research, concept development, vendor negotiation, and production
- Cost impact: Restructured yarn sourcing strategy, cutting costs by 50% while improving quality — collections became top performers in the division
- Data-driven product: Grounded collections in customer data and competitive analysis, balancing creative ambition with production timelines and margin targets

User Interface Designer

June - December 2022

The Elements Financial Monitoring System™ · Contract

- Brought in to establish cross-platform design consistency across iOS, Android, and web for a financial monitoring product
- Built scalable component systems and design standards that improved usability and reduced handoff friction between design and engineering

Associate Designer

July 2013- July 2019

Kohl's · Simply Vera Vera Wang, Dana Buchman, Jennifer Lopez

- Brand scale: Designed woven, knitwear, sweater, and dress assortments across three licensed brands — up to 150 styles per season — driving a 20% category sales increase
- Celebrity collaboration: Partnered directly with Jennifer Lopez's styling team to translate her creative vision into profitable, trend-forward product
- Vendor & sourcing: Led international vendor negotiations and yarn sourcing end-to-end, managing development through production for quality and on-time delivery
